EECA's Mission and Behaviours

Our Mission

EECA's mission is to mobilise New Zealanders to be world leaders in clean and clever energy use. We are Te Tari Tiaki Pūngao – Guardian of the energy. This means we have a responsibility to ensure that all of New Zealand recognises that the energy we save now will be an asset to our future, in a multitude of ways. We want a sustainable energy system that supports the prosperity and well-being of current and future generations.

In order to get there, our key strategic objectives are:

- Energy efficiency first
- Empower energy users
- Accelerate renewable energy

Outcomes are that energy users save energy, money and reduce emissions; and energy productivity and resilience improve. The levers EECA uses to achieve this are:

- Regulation of products, processes and systems
- Information and education to promote clean and clever energy choices
- Targeted investment to demonstrate and scale up energy efficient technologies and renewable energy use.
