

ANZ, YOUR PARTNER FOR GIDI FINANCING

One of our purposes at ANZ is to shape a world where people and communities thrive.

We are focussed on integrating this purpose and our Environment, Social and Governance ("ESG") approach into our business strategy. As part of our climate change commitment we want to be the leading Australia and New Zealand based bank in supporting customers transition to net zero emissions by 2050. This can include providing insights to help customers identify and reduce their emissions or to help customers finance their transition to net zero.

We are a leader in Sustainable Finance – as reflected in the 2021 Peter Lee survey¹ and from our leading market share:

- Finance Asia has recognised ANZ as the 2021 'Best Local Bond House' and 'Best Sustainable Finance House' for Australia and New Zealand²;
- ANZ reviewed our **approach to climate change** in 2021 to ensure we act in support of customer, community and government efforts to facilitate the transition to net zero emissions by 2050;
- We have a strong team of experienced professionals located across Australia, New Zealand, Asia and Europe, who work closely to share their sustainability, financial and sustainable finance knowledge across the bank to best help our customers.

We continue to build on our market leading position and we are delighted to have recently announced a strategic partnership with Pollination, a leading global climate change investment and advisory firm.

To understand further about how ANZ is helping businesses with their sustainability journeys, please see the below links which contain some case studies and our commitments:

- [ANZ NZ News – Our Sustainability-related Projects](#)
- [ANZ NZ – Managing our Environmental Impact](#)
- [ANZ – Our Climate Change Statement](#)

¹ ANZ Bank New Zealand Limited was rated No. 1 for Market Leader in ESG in the Peter Lee Associates Large Corporate Relationship Banking Survey, 2021.

² Finance Asia - Achievement Awards, 2021.

SUPPORTING YOUR GIDI FUNDING APPLICATION

We are supportive of EECA's initiative to introduce GIDI applicants to potential financiers such as us and we would welcome the opportunity to talk to you about your business' financial needs, how you are transitioning and your application for GIDI funding.

For ANZ customers, we are currently providing a range of funding options to help you increase your climate resilience and transition to net zero. Our approach is to look at each funding opportunity on its own merits and what your broad sustainable and green funding needs are. This will also inform any deal criteria, certification, reporting, tracking or other expectations we may have to support you. As a consequence, and because your needs are unique, we would encourage you to reach out to your ANZ Relationship Manager or Richard Hinchliffe.

YOUR ANZ CONTACTS

If you are an ANZ customer, please reach out to your Relationship Manager to talk about your project and finance needs.

If you aren't an ANZ customer but want to know more about ANZ Bank and how we can help companies transition to net-zero, please contact:

RICHARD HINCHLIFFE
