

IDENTIFYING CARBON REDUCTION OPPORTUNITIES

Elevate your organisation's ambition on "SDG 13 - Take urgent action to combat climate change and its impacts".

This course will uncover opportunities for GHG emissions reductions across your business or for your clients.

Join this one day course to discover and learn how you can reduce emissions across a range of different functions:

- Building energy emissions
- Travel and fleet emissions
- Freight and logistics emissions
- Waste
- Procurement and purchased goods and services.

Who will benefit most from this training?

This training course is aimed at carbon and sustainability professionals with a sound knowledge of ISO 14064 Part 1:2018, who want to uncover organisational opportunities for GHG emission reductions.

Please Note:

Participants are required to have sound knowledge of carbon inventories to ISO14064, Part 1. If you do not, we recommend completing the Preparing a Carbon Inventory Training Course beforehand.

Certification

This training prepares candidates for our Carbon Auditor Certification <https://cep.org.nz/certified-carbon-auditor/>.
NB: Accreditation fees are to be advised and not included in Training fees.
