## Kiwibanks sustainability approach:

As part of being a purpose-led business, we know that we need to run our business in a way that helps our customers, our people, the communities we operate in and the environment. Here's just a few of the ways to show how we're doing that. [Click here more information including our sustainability report.](#)

### 2,000kgs of plastic recycled into cards

We're proud to be the first bank in New Zealand to use recycled plastic in all our EFTPOS, debit and credit cards. 82% of all material used is recycled.

### We're B Corp™ certified!

Our [B Corp Certification](#) means we're doing the right thing when it comes to our people, customers, suppliers, community and environment.

### Responsible business banking

Our Kiwibank Responsible Business Banking policy outlines the industries and businesses we won't do business with. This policy highlights our commitment to protecting the best interests of Kiwi and the environment.

### Our climate change action plan

Climate Action Plan which has seen a 53% reduction in emissions below 2018.

## Benefits of Kiwbank sustainable finance

### This is sustainable finance

Our purpose is to make Kiwi better off, and a key pillar of that is using sustainable finance to improve Kiwi businesses. We are a purpose-led partner committed to enabling our customers to transition to a low carbon economy.

We reward innovative sustainable action in our deals, and the terms we offer reflect that.

But our expert support is more than just finance. It includes supporting customers to measure and understand their emissions, providing access to professional networks, and profiling customer success stories (whether that be through our own marketing or media partners).

Successful GDI applicants will receive competitive funding fixed or variable rates and discounts considered based on impact and purpose.
