Dear [REDACTED]

Re: Official Information Act Request: Low Emission Transport Fund EV charging applications

Thank you for your email, received by Waka Kotahi on 17 July, which was then transferred to EECA on 21 July and then further clarified on 25 July, in which you requested information under the Official Information Act 1982. You requested the following information in CSV or XLSX format:

A list of all applications (received and provisionally approved) under the most recent round of the Low Emission Transport Fund (formerly EECA Low Emission Vehicles Contestable Fund) for public fastcharging infrastructure.

For each application, please provide applicant name, NZBN (if applicable), proposed site address or GPS coordinates, requested cofunding amount, and expected commissioning date.

Please see information attached in your requested format as Appendix One. However, information regarding unsuccessful applicants has been redacted under 9(2)(b)2 – *to protect information that would disclose a trade secret or be likely unreasonably to prejudice the commercial position of a third party.*

The final list of approved projects and the amount of funding granted is publicly available online here- [EV-2-urban-infill-projects-Announced-December-2024.pdf](#) I have also included this as an attachment.

You have the right to seek an investigation and review by the Ombudsman of this decision. Information about how to make a complaint is available at www.ombudsman.parliament.nz or freephone 0800 802 602.

Please note that it is our policy to proactively release our responses to official information requests where possible. Our response to your request will be published shortly at <https://www.eeca.govt.nz/about/news-and-corporate/official-information/> with your personal information removed.

Yours sincerely,

Dr Marcos Pelenur
EECA Chief Executive

Caveats: Expected commissioning dates are based on current information provided by contract managers and are not directly related to the applications.
grey sections are redacted under 9(2)(b)2 – to protect information that would disclose a trade secret or be likely unreasonably to prejudice the commercial position of a third party
The information provided is based on application data and does not necessarily match what was contracted
