

Testing results for 2020/2021: Household refrigerating appliances

Each year EECA conducts laboratory testing to make sure manufacturers' and importers' products meet the requirements of the [Energy Efficiency \(Energy Using Products\) Regulations 2002](#). Products are tested to check if they pass or fail Minimum Energy Performance Standards (MEPS) requirements and Mandatory Energy Performance Label (MEPL) requirements.

This year, 5 models of household refrigerating appliances were tested by an accredited laboratory (as required by the Regulations).

The testing results are presented in the table below.

Brand	Model	E3 Registration Number	Results
Beko	TSE1283	ARF1213	Pass
Caterchill	FR-BD155K	ARF0389	Pass
Living & Co	LC-H145W	ARF1082	Pass
Liebherr	CNef 4315	ARF1373	Pass
Mitsubishi Electric	MR-260G-W-A	ARF0394	Pass
